Under John Lampros's leadership, spending within White Pine County has exploded. With the recent commitment to a swimming pool that is far beyond our needs and completely over the top with costs of construction and known operating expenses, plus the reckless and completely unplanned attempt at replacing the County annex building resulting in money being paid out for nothing. Purchasing of the Ely Times building, with known problems, possibly with as much age and probably with as many problems as the current structure, and again unknown cost to make this building useable, coupled with other unbudgeted, unplanned expenditures, has seriously reduced fund balances leaving the County saddled with future debt loads beyond our means.

The current budget has a 1.4+ million short fall not including these building commitments.

On numerous occasions Lampros has exhibited very unprofessional behavior, use of vulgar language, berating individuals (including fellow commissioners), who dare to take issue with his pet projects, leadership style, or vote against his desires. Intimidation and physical pressure has even resulted in Sherriff investigations for assault.

We are asking the people to take this necessary action by removing John Lampros before this County is forced back into insolvency though continued mismanagement.

Mike Lemich along with the Chairman has spearheaded the economic disaster that this County now finds its self in. In addition to poor fiscal management Lemich has taken very combative and pushed personal vendettas against the private operator at the Airport and members of the Airport Board. Accusations, intimidations, lies and outright threats against both the operator and their customers have far crossed the line of ethics. He has continued to press these issues even though both County and private attorneys have stated that no legalities are at issue.

He is has taken upon himself to dismantle the County Fire and EMS services, violating and or subjecting the County to NRS violations and placing outlying communities in grave risks due to lack of timely services, while attempting to turn over the management of these services to City of Ely control. Again intimidation has been the style.

As the County representative to the City of Ely, he has engaged in direct personal negotiations regarding his private land transfers, while simultaneously negotiating land exchanges for the County.

He's been the subject of several State and local investigations including pending assault of a local citizen.

White Pine deserves better
